VALUABLE IRON PROPERTY AND FARM FOR SALE THE subscriber would call the attention of those who wish to embark in the Iron business, also those who wish to own a handsome and fertile farm, to the following property which he offers for sale.

1st. Jackson Furnace and lands, say about 2500 acres.—
This furnace is on Beaver Data Creek, Dickson county,

Tennessee, and the stack is the largest in the State, being 47 feet high. The turnace, except the stack, is now being rebuilt, and will be ready to put in blast by the lat of November. The route of the North Western Railroad, as surveyed, passes immediately by the Furnace. The ore is unurpassed, and the timber and ground admirably adapted for coaling.

Also, Belleview Furnace, and about \$500 acres of land,

including the Dickson ore bank. This Furnace is on Jones' Creek, about three miles South of Charlotte. There is a good water power, and also good farming lands attached to this property.

Also, the Valley Forge on Jones' Creek, and about 57,00 acres of land. The tall is 28 feet, and the head of water
immedie. There are some very time farming lands in this Truet, and it is altogether a most desirable location.

Also, the Mill Creek property and Duck River ore bank in Hickman county, Tennessee. The Mill Creek sites, of which there are five or six, present the best water powers for the size of the stream that can be found in any country. The Dack River ore bank is the heaviest deposite of ore in the State, and the ore can be procured with less labor than at any bank in the country. It is within half a mile of buck River, and the lands around are covered with the

best coaling timber.
Also, the Lower Tonnel, at the Narrows of Harpeth, Davidson county, Tennessee, with ten acres of land for buildings and machinery. It is unnecessary to speak of the water power at the Narrows of Harpeth. It is known to every one, and twenty-live years of experience enables the subscriber to speak with certainty of its great benefits and usefulness. It is, indeed, only to be seen to be appreciated.

Lastly, my Williamson Furns, on which I now reside, and which for beauty and fertility is second to none. The house is large and airy, and the out-buildings of the best descrip-tion. It is intersected by the Southern Railroad, and also tion. It is intersected by the Southern Kaironal, and also by the Nashville and Franklin Turopiac. It is 11 miles from Nashville and 7 from Franklin. It is a "mendow larm," watered by Little Harpeth, and the best evidence of its quality is the hay produced on it this year, which all who have seen it, pronounce if the best they have ever seen. It is altogether one of the most desirable turns for beauty

and profit that is in the South-west. It contains about 560 The above property is offered for sale, not for the purp of profit or speculation, but simply from the fact that the subscriber's health, makes it necessary to relieve himself of subscriber's health, makes it necessary to return himself of
